Our Preachersville Correspondent In Hoosierdom.

INDIANAPOLIS, IND., Sept. 12.—In fulfillment of our promise to the readers of the "cheapest and best" we will now, after a long delay, tell of some of our experiences among the Hoosiers. We still continue to make new friends and occasionally run across some of our Kentucky friends who are in business in this city. We had the pleasure of seeing our good friend, Eugene Sutton, who is now working insurance for all it is worth. He is partner with J. H. Kennedy in a grocery, and judging from the customers, are doing a thriving business. They are two old Preachersville boys in whom Preachersville is much interested.

We enjoyed a drive through Woodruff Place with Mr. Robert Laflin, who very kindly pointed out the many beauties of this most beautiful city park. The residences fronting on this park are among the finest in the city, each costing \$15,000, none of lower price being permitted. Besides this fashionable drive there are dozens of others equally attractive. Statues, fountains and flowers are some of its many ornaments. Riverside and Broad Ripple parks are on White River and afford best facilities for boating and bathing. Street cars run to these parks and people may picnic there and return to their homes far out in the country in time for supper. We enjoyed a visit to the Indiana Statehouse and went through the State museum, which contains many excellent specimens of birds, reptiles and animals, which look very natural, and which speak well for the taxidermist's skill. Next we visited the Indiana insane asylum, where 800 male and 1,150 female patients are taken care of in lavish splendor. This is one of four such institutions in the State and the Legislature has made appropriation for still another.

Indiana State Soldiers' and Sailors' Monument is another of the impressive landmarks of the Hoosier metropolis. Objects more than 10 miles away are plainly visible from the balcony of this towering shaft. It is universally admitted to be the grandest achievement of architectural and sculptural art in the world, designed to perpetuate the heroic epoch of the republic and to commemorate the valor and fortitude of Indiana's soldiers and sailors in the war of the Rebellion and other wars. The monument foundation is 69 by 53 feet and is 30 feet deep; being surrounded by a plaza the diameter of which is 342 feet. The monument is 285 feet from street level to top of statue. The balcony is 228 feet above the ground, is reached by an electric elevator or by a stairway consisting of 32 flights—324 steps. On reaching the balcony, visitors look over a beautiful panorama of Indianapolis and vicinity—a delightful view, not surpassed anywhere. Below the balcony is a bronze astragal bearing the dates, 1861-1865 on the four sides of the shaft, illuminated by electricity. Midway the monument is a second bronze astragal, representing the navy, and further down, a third bronze astragal, emblematic of the army. On the east and west sides of the monument are the two largest groups that have ever been carved out of stone—the one on the east representing war, the other peace. On the south front are two heroic statues, each out of a huge block of stone; one representing infantry, the other an ideal cavalry scout. On the north front are the artillery and navy representatives, same as on the south. On the east and west sides of the terrace are magnificent cascades, over each of which flow 7,000 gallons of water per minute. With eight immense candelabra, carrying 48 arc and 150 incandescent lamps, together with the 500 incandescent lamps, Monument Place is the most brilliantly and beautifully lighted place in this country. Above the entrance facing south is the inscription of dedication: "To Indiana's Silent Victors." This monument was finished in 1894 at a cost of \$600,000. To have looked once upon this beautiful monument is to have its picture hung in memory's halls forever. Ere these lines shall have been read we will be again in old Kentucky.

Very truly yours,

B. I. BLANKENSHIP.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for consumption, coughs and colds." Greatest sale of any cough or lung medicine in the world. At G. L. Penny's drug store, Stanford, and Lyne Bros., of Crab Orchard, 50c and \$1; guaranteed. Trial bottle free.

Bobbitt On Happiness, Etc.

CRAB ORCHARD, Sept. 12th.—I desire to describe a real happy domestic life. True happiness is not found in the gilded palatial hall where wealth abounds. Cold formality and frozen pride are found there. The rich, the powerful and the great are seldom happy. 'Tis not in being a great lawyer, a doctor, a statesman, a Congressman, a scientist or a scholar. 'Tis not through ambition, shutting yourself up in some great temple of science, of law, of medicine, of art, and growing ghastly pale and gray by the baleful reflection of a midnight lamp. All these have been tried in vain. Marrying for wealth where there is no reciprocating love is but to shipwreck happiness on a desolate shore. Where there is no love let there be no marriage.

I was asked at Crab Orchard Springs this summer in a large assembly of ladies and gentlemen if I could be induced to marry for money? I answered at once: My heart for gold can not be sold, I know its value better.

A princely throne where love's unknown Is but a splendid fetter.

(Great applause) I will give our readers a picture of true happiness: A neat log house, a gourd vine climbing the wall, a rude porch covered with boards, the house also covered with boards, no loft to deaden the sound of the falling rain. A dozen hens and feathered, spurred knight whose clarion voice proclaims the hours of the night, one cow, one horse, or better, no horse, one baby, or no baby, a small garden patch, 10 barrels of corn, a little hay sticking out of the stable loft and a small stack of hay or blade fodder on the outside, corn "laid by," dark clouds lowering in the western horizon, the lurid lightning darting its forked spires across its gloomy front, deep-toned thunder rolling across the corduroy pike of the heavens and you inhaling the odor of the frying chickens, listening to the music of the turning coffee mill, and as the big drops of rain begin to fall upon the boarded roof of the cabin, to hear a soft, musical voice in the kitchen-dining room: "Darling supper is ready." And you go in and find your love has put all the best pieces of chicken on your plate. Then after supper is over, if circumstances will permit, sit before a good log fire because the evening is so damp, and sing:

Corn in the little crib, a dollar in the pocket, Baby in cradle and pretty wife to rock it.

This is true happiness, this is sublimity, this is terrestrial felicity! Why do not I pursue this plan? Because Beuglement (Beuglement) is too large and my two houses in Bobbitt are too fine, one being a white framed house and the other having two brick chimneys and too grand to make our poverty sufficiently splendid!

FONTAINE FOX BOBBITT.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." G. L. Penny, druggist, Stanford, and Lyne Bros., Crab Orchard, sell and guarantee them, at 50c a bottle.

Dresden is one of the few cities possessing a municipal newspaper, and this was bequeathed to the city by the late Dr. Gunt. The bequest is a very valuable property, and consists of a daily newspaper, which, in consequence of its extensive circulation, is the principal advertising medium in the neighborhood. The profits are applied to the beautifying and improvement of the city and to charity.

Attacked by a Mob

And beaten, in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve, and was soon sound and well. "I use it in my family," writes G. J. Welch, of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at G. L. Penny's drug store, Stanford, and Lyne Bros., Crab Orchard.

The Young Man—I don't know what to do. I'm 18 and I'm in love with a girl who is 22.

Ninety years old, six times married, and the father of 44 children is the record of Jacob Kinney, better known as "Major," who applied for and got a license at the Henrico Co., Va., Clerk's office to wed one Ann Green, who is also no novice on the matrimonial sea, and who is 60 years of age. In recent years the old man has been getting feeble and has been supported by his sons. When asked what he meant by getting married again he said: "I need a helpmate."

The public has been on the qui vive for some time in expectancy of the marriage of Mr. W. K. Ransom to Miss Daisy McGuire. This happy event had its consummation last Wednesday evening at the Baptist church. Just as the prayer meeting was being dismissed the bridal party filed into the church, amid the soft strains of the wedding March played by Mrs. Covington. The ceremony was short and impressive, Rev. Forrest Maddox pronouncing the words that made fast the tie that binds. While devoid of ostentation, the wedding was a very pretty one, and congratulations were extended in the heartiest manner to the young and suitably matched couple.—Yurkon, O. T. Sun. The bride is a daughter of Mr. W. S. McGuire, formerly of this place, and is an excellent young woman.

An insurance adjuster was sent to adjust a loss on a building that had been burned. "How did the fire start?" asked a friend who met him on his homeward trip. "I couldn't say certainly," said the adjuster, "but it struck me that it was the result of friction."

"What do you mean by that?" asked his friend. "Well," said the insurance man, "friction sometimes comes from rubbing a \$10,000 policy on a \$5,000 house."

A small boy was reciting in a geography class. The teacher was trying to teach him the points of the compass. She explained: "On your right is the South, your left the North, and in front of you is the East. Now, what is behind you?"

Up Against the Real Thing.

Such can be said of the task we are now engaged in and that is buying new Fall and Winter goods. Not that which looks like work, but real head work and physical labor. To buy the right kind is to select from the great mass goods merchandise offered, that which will meet the wants of our trade. To walk around the poor styles and bad qualities and select the good is no easy task. But with our experience in buying we believe we can select those goods which will give satisfaction. We offer you as evidence of our ability to do this what this store has done in the past.

A DISPATCH from Laporte, Ind., to the Louisville Post states that Charley Metcalf shot and seriously wounded a young man there in trouble which came up over a young lady both were visiting. Mr. Metcalf's father, Mr. Thomas Metcalf, of Boyle, was here yesterday and when asked about the trouble said: "We know only what we saw in the paper. A letter from Charley received on Wednesday stated that some young men had entered his room and stolen his clothes. He got out warrants for them and they had threatened to whip him on sight. Probably they attempted it and he used his pistol. We do not believe the report that jealousy over a young lady had anything to do with the trouble." Mr. Metcalf is attending a business college at Laporte.

CORBIN.—No town in Kentucky is growing faster than Corbin, which was less than a dozen years ago merely a flag station. It was then known as Lynn Camp. It is now a town of 2,000 or 2,500 inhabitants, with all the modern conveniences and with bright prospects of becoming a city. The L. & N. has shops there, giving employment to hundreds of men, and with all trains and train crews recognizing Corbin as headquarters, the monthly pay roll is something enormous. At first the buildings erected were rather temporary, but now substantial brick business houses and residences are taking their places, concrete pavements are being made and everything points to a better and bigger Corbin. Lincoln county has sent many good citizens there, the last being the family of Mr. J. M. McCarty. Mr. McCarty is mine host of Hotel Corbin, one of the "daisiest" little hotels in the State. It is a pretty brick structure and Mr. McCarty and his splendid wife are running it according to Hoyle. The house is always crowded and deserves to be. Charles E. Cox is now a full-fledged citizen of Corbin. He went there to clerk for Mr. Matt Woodson; Mr. Woodson sold his store to Hagan & Larue and now Mr. Cox is running it for them. His wife, children and parents will soon join him and Stanford will lose some more of her good people. Mr. and Mrs. A. D. Underwood, Mr. and Mrs. Jesse Mershon, Joseph Payne, Mr. and Mrs. C. L. Gover, Capt. Thomas Richards and family, Jesse Traylor, are all Lincoln county people who are now leading citizens of Corbin. Alex W. Francis, of Garrard, well known here, is the liveryman and general hustler of his town. He is getting rich rapidly, we are glad to say. Mr. Mershon, mentioned above, owns jointly with his son-in-law, Mr. John Hagan, the magnificent electric light plant. Stark Fish, a Stanford Negro, is Mr. Mershon's right hand man in the running of it. Messrs. Hagan and Mershon own considerable real estate and will soon begin the erection of a large two-story brick to contain two store-rooms and a dozen offices. Corbin is on a substantial boom and to us it looks like a splendid place to make money.

Three Jurors Cured

Of Cholera Morbus with one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some soused meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one 25 cent bottle cured the three of us." For sale by all druggists.

Congressman James M. Richardson, of the Third district, is ill of typhoid fever.

At the regular meeting on the 4th Saturday in August, 1905, of James Humphrey Post 81, department of Kentucky, these resolutions were passed:

"That we deeply regret the loss of Comrade Eastham Tarrant, who died Aug. 11, 1905. That we sincerely sympathize with his sister and other relatives, and that a copy of these proceedings be sent for publication to the INTERIOR JOURNAL, National Tribune and Casey County News. He was adjutant of this Post and a member of Co. A, 1st Ky. Cavalry. He was a frequent contributor to various papers, author of history of the 1st Ky. Cavalry. His ancestors participated in the revolutionary war and war of 1812. Had an uncle in the battle of New Orleans.

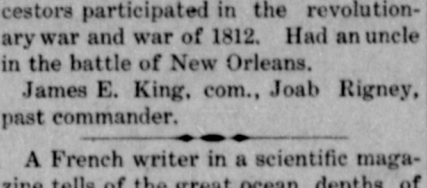

James E. King, com., Joab Rigney, past commander.

A French writer in a scientific magazine tells of the great ocean depths of 28,000 to 30,000 feet, the temperature tending toward zero, the perpetual darkness ranging below depths of about 1,280 feet. At that level plants, deprived of light, cannot exist. The animal life must be carnivorous. The organs of sight, not being used, have become atrophied and disappeared. Yet there is light even in that sightless world. A German exploring ship found a fish with enormous eyes at a depth of 6,400 feet.

A Remedy without a Peer.

"I find Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used for stomach trouble," says J. P. Klote, of Edina, Mo. For any disorder of the stomach, biliousness or constipation, these Tablets are without a peer. For sale by all druggists.

A FOOLISH PLAN

"It is a joy to eat—I welcome my dinner hour! Because I rout indigestion with August Flower!"

"Constipation is the result of indigestion, biliousness, flatulency, loss of appetite, self-poisoning, anemia, emaciation, uric acid, neuralgia in various parts of the system, catarrhal inflammation of the intestinal canal and numerous other ailments that rob life of its pleasures if they do not finally rob you of life itself."

"I'm bound in the bowels," is a common expression of people who look miserable and are miserable—yet who persist in "letting nature take its course."

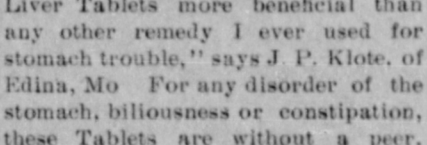

"What a foolish plan, when nature could be aided by the use of Green's August Flower, which is nature's own remedy for constipation and all stomach ills."

"August Flower gives new life to the liver and insures healthy stools."

"Two sizes, 25c and 75c. All druggists."
